

Doko POWER/DATA BOX

Doko power and data boxes are designed with efficiency in mind. Doko boxes fit within top of Doko's unique inverted basket shaped base while also providing plenty of connectivity.

Doko power/data boxes include:

- 4 simplex power outlets
- 4 charging USBs
- 1 openings for additional technology that can be added now, or later as your needs grow and change

This tabletop box is covered with a 6" x 6" hatch lid available in a variety of materials to either match your tabletop or in anodized aluminum to match your table base accents.

The box is available with traditional power cords or hard wire whips (2 per box). For tables with multiple boxes, ask us about adding ETL listed power strips under your tabletop.

CUSTOMIZE YOUR BOX

Work with your WallGoldfinger team or AV consultant to add other technology to this customizable box. Popular plate choices include:

2 RJ45s (data/network connectors)

1HDMI, 1 VGA and 1 mini-stereo
