

WALLGOLDFINGER STANDARD POWER/DATA BOX

Add a WallGoldfinger Furniture standard size power/data box to your custom, Arbor or Summit table.

Exclusively created for and only available through WallGoldfinger Furniture and Mark Richey, this fixture box includes:

- a 15-foot power cord
- 2 simplex power outlets
- 3 openings for additional technology

Easy to access, power/data boxes are built into the tabletop and covered with 6"x8" hatch lids available in your choice of material.

CUSTOMIZE YOUR BOX

Work with your AV consultant to add other technology to this customizable box. Popular plate choices include:

2 RJ45s (data/network connectors) in one opening

1HDMI, 1 VGA and 1 mini-stereo in one opening

2 charging or power USBs in one opening

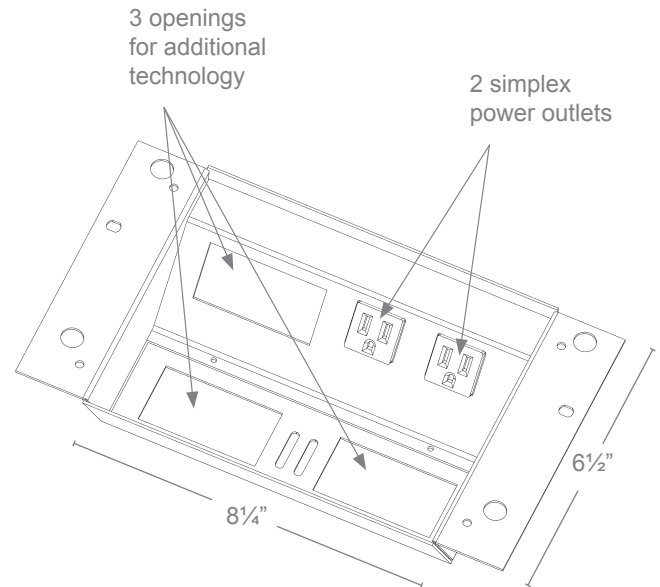

3 cord bushings

Brush minder

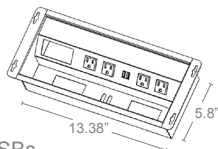

Blank plate for covering opening or later add-ons

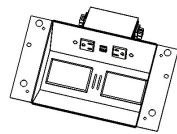

OTHER POWER OPTIONS

Other fixture boxes:

Power and data box with 4 simplex power outlets, 2 USBs, and 3 openings for additional technology (below a 6"x13 1/2" hatch lid)

ETL listed box for daisy chaining with 2 simplex power outlets, 2 USBs and 2 openings for additional technology (below a 6"x8" hatch lid)

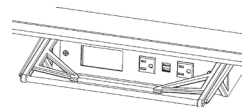

Apron power:

Apron power is available on custom tables with and without a flip-up receding door. Doors match apron materials to maintain table aesthetics.

Covert Glide:

Wall-Goldfinger Furniture's exclusive *Covert Glide* retractable under table power and data box with 2 simplex power outlets, 2 USBs and 1 opening for additional technology

Power drawers to match your table's edge profile are also available!
