

CORPORATE OFFICES

THE CHALLENGE

A leading insurer is redoing its executive offices and meeting spaces in multiple locations. It needs a manufacturer capable of producing the highest quality custom work that reflects both traditional and modern styles — and in grand scale.

THE SOLUTION

WallGoldfinger has been designing, engineering and creating the highest quality corporate furniture for decades. The company’s state-of-the-art factory has the experienced staff and high tech equipment to meet the client’s needs for veneer finished to perfection and flawless integration of modern stone and metal.

DESIGNER

Woods Bagot
